

APPENDIX C

**INTERVIEW STRUCTURE FOR EXPLORING PREVIOUS
LEARNING AND PRACTICE EXPERIENCES**

PREVIOUS MEDICAL EXPERIENCES

1. Where did you train in medical school?
2. What was the format of your medical school training? (For example, was it large group lecturing, small group learning, or some other form of training?)
3. Have you had training beyond medical school? If so what was the content and format of that training?
4. What type of exposure to patients did you have throughout your training? Did you have the opportunity to interact with patients on a regular basis? Please tell me about some of the groups or types of patients you typically saw.
5. Did you have direct patient contact with patients of all ages and both genders?
6. Did you practice medicine previously? If so, what type of practice did you have?

PREVIOUS LEARNING EXPERIENCES

1. What do you see as the role of the teacher in your training? What is your role as a learner in your training?

2. How would you identify your learning needs and establish learning goals to meet these needs?

3. How has your performance been evaluated in previous learning situations?

4. What type of feedback are you familiar with? For example, have you been provided with feedback from direct observation of your patient interactions? Have you had feedback on history-taking, physical examination and so on?
